

The ReAct™ castellated panel is a high-performance, easy-to-install system designed for screed floors. With a self-adhesive 'peel and stick' backing, it allows for quick and secure pipe installation, ensuring optimal heat transfer.

The castellated design ensures precise pipe positioning, providing flexibility for various heating requirements. Suitable for both traditional and flow screeds, ReAct™ panels are compatible with SUPERflex™-12 and SUPERflex™-16 / AluPlas®-16 pipes.

	ReAct™-12	ReAct™-16
Width (mm)	1220	1220
Length (mm)	820	820
Thickness (mm)	15	18
Pipe channels (mm)	12	16
Weight (kg)	0.5	0.7

Other properties:

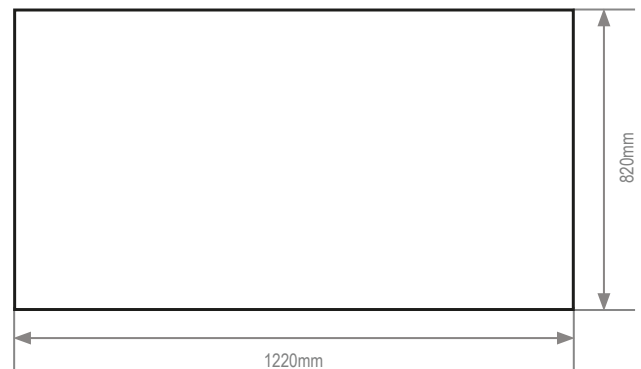

- Non-toxic and non-biodegradable

Features:

- Peel and stick – self-adhesive backing for easy installation
- Secure pipe positioning
- Works with traditional screeds
- Suitable for all heat sources
- Flexible pipe spacing

ReAct™ options:

- ReAct™-12: Designed for SUPERflex™-12 pipe, ideal for areas with minimal floor height
- ReAct™-16: Designed for SUPERflex™-16 / AluPlas®-16 pipe, perfect for larger areas with traditional screed depths

About us

No ifs, no buts. The award-winning Continal® service means you get an underfloor heating system delivered to you on time, on site, every time, no compromise.
